

David Lynch

Director, Engineering and Development

Mr. David Lynch graduated with a Bachelor of Engineering Science in Mechanical Engineering from the University of Western Ontario in 1988 and has more than 25 years of experience in the electronics industry, having worked in leading companies in the consumer, telecommunications, industrial, automotive, contract manufacturing, semiconductor and medical device space. Mr. Lynch has hands on experience in manufacturing, product design and development and supply management.

Mr. Lynch has held numerous engineering and management roles, including with Ford Motor Company, Celestica and several start-up companies such as Microbonds and inMotive Inc. Mr. Lynch has a passion for learning and adapting existing solutions to new challenges. Before joining XOR Labs, Mr. Lynch worked with local start-up companies, including Bubl and Ecobee, in new product development and supply chain development. He also has 12 years of board and leadership experience in a not for profit organization.
