

Dr. Mingyao Liu

Clinical Advisor

Dr. Mingyao Liu was deeply involved with the scientific research leading to the development and clinical validation of the Toronto EVLP System, building on his decades of background in lung biology and research in lung injury. Dr. Liu, like Dr. Cypel, as “voice of the customer” contributes to XOR’s current and future products. As former Vice-Dean, International Relations, University of Toronto, he also contributes his extensive network globally to broader XOR strategy regarding other organs and emerging geographies such as Brazil and China.

Dr. Mingyao Liu is a Professor of Surgery and Director of Institute of Medical Science at the Faculty of Medicine, University of Toronto. He is a Senior Scientist and Head of Respiratory and Critical Care Research at the Toronto General Research Institute, University Health Network. Dr. Liu has taken several academic administrative roles in the University of Toronto, including Graduate Coordinator, Associate Director/Interim Director at the Institute of Medical Science, Associate Dean of Life Sciences of the School of Graduate Studies, and Director of International Research Relations, at the Faculty of Medicine.
